The Lok Satta Party today appealed to people of all regions in the State to give up all forms of agitation like fasts, bandhs and rasta and rail rokos, restore peace and normalcy and create conditions for a healthy and negotiated settlement on the political crisis in the State.

Talking to the media in the wake of the Delhi decision on the demands for the formation of a separate State and for keeping the State intact, party spokesmen Mr.Katari Srinivasa Rao, Mr.YD Rama Rao, Mr.P.Ravi Maruth, Mr.V.Vijayender Reddy appealed to the media to play a positive and creative role and promote amity among people of different regions in the State. Political parties and their leaders should refrain from making provocative statements and resorting to abuse and invective against each other all of which would merely undermine the parties' credibility and complicate the situation.

The political parties and leaders should ensure their members did not indulge in any acts that would harm the larger interests of the State. Pending a negotiated settlement, the Government of India should initiate interim measures that address the concerns and aspirations of people in different regions of the State and facilitate the process of dialogue among people and parties of different regions in the State.
